RE: INFORMATION REQUIREMENT, Section 308 of the Clean Water Act, 33 U.S.C. Section 1318 to Washington Aqueduct, 5900 MacArthur Boulevard, Washington, DC 20016, Baltimore District, US Army Corps of Engineers

Dear Mr. Seligman:

The following information is submitted in accordance with the subject request for information letter dated January 6, 2016. In our February 12, 2016, letter to you we said we would send monthly updates as of the 15th of the month reporting on dredging activity at the Georgetown sedimentation basins in the prior 30 days.

This update is for the period August 16 through September 15, 2016.

The residuals pumps were repaired by a contractor and both were available for use on September 6. As reported last month, to prepare for the commercial dredging our in-house dredge was disconnected and moved out of the way. The commercial dredging operations began on September 12. 65,240 pounds of sediment were removed and sent to the residuals processing facility between September 12 and 15.

I certify that the information contained in or accompanying this submission to be true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. I certify

Proudly Providing Water to the Nation's Capital Since 1853

ED_001295_00001539-00001

as having responsibility for the persons who, acting under my direct instruction, made the verification that is information is true, accurate, and complete.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Thomas P. Jacobus', with a stylized flourish extending to the right.

Thomas P. Jacobus
General Manager
